

Northern Colorado Women in Business has Invested \$30,019 back into our Community since 2018 through our monthly Philanthropy: Sister-to-Sister / Pay it Forward!

We endorse giving back to worthy efforts that impact our community. When you pay to attend your first NorCoWIB Workshop, you have access to become a full-fledged member where your participation is valued when paying one of the three annual membership levels. By “showing up” your participation can turn contacts into powerful connections to build your business.

Members suggest the topics, speakers and nonprofits that we showcase each month. Local nonprofits benefit from our monthly free-will philanthropic focus that rotates monthly. Members have the opportunity to donate any amount they wish in \$5 increments + their business card. We draw one card at the conclusion of our workshop; that individual shares the donated cash with the selected nonprofit 50:50, unless she decides to donate some of her share.

We believe in supporting local and spending our money with one another's businesses. Thank you for contributing to our growing SUCCESS! Please feel free to invite a girlfriend who can benefit from our interactions. Our Ladies lead with their hearts and really enjoy getting to know one another, our presenters and building local connections! To date, we have proudly invested in the nonprofit organizations listed below - supporting the impactful work they provide for those needing a wide variety of services.
